23 December 2005

TO WHOM IT MAY CONCERN:

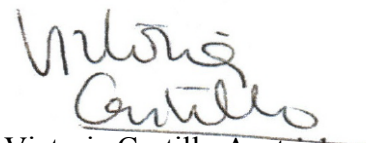

The purpose of this letter is to recommend C.J. and Company for building and decorating jobs.

In December 2004, C.J. and Company rebuilt the boundary walls of our front garden. We were impressed with the quality of the work done and pleasantly surprised to work with the builders who were not only punctual (they came and went when they said they would), but also able to finish the work within the agreed-upon period of time. In addition, we appreciated the fact that at every stage we were asked about our views on what was being done, a practice that allowed us to make several last-minute changes to the original plan.

To conclude, we are very happy with the work done for us by C.J. and Company and we recommend them without hesitation.

Dr David Block

Ms Victoria Castillo Austrich
