TO WHOM IT MAY CONCERN

My husband and I recently had Costas and his team in our house for two weeks for internal building work downstairs.

We were very satisfied with the electrical work, plastering, carpentry etc carried out, not only was the quality of workmanship high but the care and consideration shown to us was very good. Any matter needing attention to/altering was dealt with in a professional and expedient manner. Nothing was too much trouble and the personal attention given by Costas was reassuring to say the least.

We would have no hesitation in recommending CJ builders.
