

2003

To Whom it may concern

Mr Costas and his team worked for me during the summer and built a replacement boundary wall. I was impressed by the care taken with all aspects of the preparation, both structural and aesthetic. The team was hard-working and thorough. Moreover they were unfailingly courteous and considerate.

I was highly satisfied with the completed work and look forward to employing them in the future. I have recommended them, without hesitation, to my friends. What a pleasure it was to have such a professional team.
